Coming In October AB Series Low Lead Compliant Outlet Boxes

Effective January 1, 2010 legislation in California and Vermont prohibits the sale of plumbing fixtures containing more than a weighted average of .25% lead, thus virtually eliminating lead content of plumbing items intended to supply water for drinking or cooking. IPS will be proactive to this legislation with the introduction of the new **AB series of Ice Maker Outlet Boxes** in October. Our early launch will allow you to make the necessary changes internally and avoid costly inventory adjustments. All IPS low lead valves will be easily identified by a Mylar tag and AB1953 stamped on valve. Our **AB series Ice Maker Outlet Box** includes the following with and without hammer arrester pre-installed:

- **Standard Ice Maker Box**
- **Mini Round Ice Maker Box**
- **Guy Gray Metal Ice Maker Boxes**
- **Guy Gray Fire Rated Outlet Boxes**

See reverse side for full product listing.
